

An **Accounting System Dashboard** should focus on the financial health of the business. The dashboard should present only the most important information that accountants, managers, and business owners need to monitor daily.

1. Financial Overview (Essential KPIs)

- Total Revenue
 - Total Expenses
 - Net Profit / Loss
 - Cash Balance
 - Accounts Receivable (Outstanding Customer Payments)
 - Accounts Payable (Outstanding Supplier Bills)
-

2. Income & Expense Summary

- Monthly Income
 - Monthly Expenses
 - Income vs. Expenses Chart
 - Expense Breakdown by Category
-

3. Cash Flow

- Cash In
 - Cash Out
 - Current Cash Balance
 - Cash Flow Trend
-

4. Accounts Receivable

- Outstanding Invoices
 - Overdue Payments
 - Customers with Unpaid Balances
 - Total Receivables
-

5. Accounts Payable

- Pending Bills
- Due This Week
- Overdue Bills

- Total Payables
-

6. Sales Summary

- Total Sales Today
 - Total Sales This Month
 - Number of Sales Transactions
 - Top Customers (Optional but useful)
-

7. Purchases Summary

- Total Purchases
 - Purchase Orders
 - Supplier Payments
 - Recent Purchases
-

8. Bank & Cash Accounts

- Bank Account Balances
 - Cash on Hand
 - Recent Deposits
 - Recent Withdrawals
-

9. Tax Summary

- VAT/Sales Tax Collected
 - Input Tax
 - Tax Payable
 - Upcoming Tax Deadlines
-

10. Financial Reports (Quick Access)

- Income Statement
 - Balance Sheet
 - Cash Flow Statement
 - Trial Balance
 - General Ledger
-

11. Recent Transactions

Display the latest:

- Sales
 - Purchases
 - Payments
 - Receipts
 - Journal Entries
-

12. Notifications & Alerts

- Overdue Invoices
 - Bills Due Soon
 - Low Cash Balance Warning

-

Recommended Dashboard Cards

For a clean and practical accounting dashboard, display these summary cards at the top:

1. Total Revenue
 2. Total Expenses
 3. Net Profit
 4. Cash Balance
 5. Accounts Receivable
 6. Accounts Payable
-

Recommended Charts

- Revenue vs. Expenses (Line Chart)
 - Monthly Profit Trend (Line Chart)
 - Expense by Category (Pie/Donut Chart)
 - Cash Flow Trend (Area or Line Chart)
 - Monthly Sales (Bar Chart)
-

Essential Tables

- Recent Transactions

- Outstanding Invoices
 - Pending Bills
 - Recent Journal Entries
-

If you're building this for the Versatec Management System, these are the core modules your Accounting Dashboard should integrate with:

- Sales
- Purchases
- Inventory
- Accounts Receivable
- Accounts Payable
- General Ledger
- Cash & Bank Management
- Tax Management
- Financial Reports

These features cover the core functionality expected in a modern accounting system while keeping the dashboard focused on the most critical financial information.
